

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

THE MILITARY ENCYCLOPÆDIA ; a Technical, Biographical and Historical Dictionary, referring exclusively to the Military Sciences and Narratives of Remarkable Battles. By J. H. STOCQUELER, Esq. 8vo. cloth, price 12s.

"This useful publication is a technical, biographical, and historical dictionary, devoted exclusively to the military sciences, the memoirs of distinguished soldiers, and the narratives of remarkable battles. The author, who is not unknown in the literary world, has produced a work very much needed at the present moment, and which it is, therefore, probable will obtain a very wide circulation. It comprehends the essence of many excellent books ; and, whilst it discards much that is old, it embodies in its pages all that is new upon the subject treated. To military men this work will be found indispensable ; by the ordinary reader, it will be found an important aid to his historical and general studies. Under these circumstances, it can be cordially recommended to the attention of both classes of the community."—*Observer*.

"This is a useful and intelligent book. In a small compass, it contains a large mass of facts and dates, and the results of copious professional learning. The combination of the biography and history of the professional, with an explanation of the technical terms of the profession, is a useful and fortunate device ; it increases the interest, and it enlarges the application of the volume. These articles are written with spirit and precision ; the arrangement and typographical appearance of the volume are good ; the number of topics embraced, and terms explained, is very considerable. Mr. Stocqueler readily admits that he is largely indebted to preceding writers and compilers ; at the same time, it is due to himself to say, that he has executed his task so well and carefully as to render his book almost an original one."

## **ALLEN'S INDIAN MAIL,**

AND

### **Register of Intelligence**

FROM BRITISH AND FOREIGN INDIA, CHINA,

AND

ALL PARTS OF THE EAST.

This Paper furnishes a full, exact, and authentic body of information respecting the countries above named, compiled not merely from public journals, but from private and exclusive sources, to the latest date. The intelligence may be classed under the following general heads:

#### **A SUMMARY AND REVIEW,**

in which the substance of the news brought by each Mail is digested into a perspicuous narrative, with critical comments.

#### **POLITICAL AND LOCAL INTELLIGENCE**

from each of the Presidencies of India, from China, Persia, and other Eastern countries.

GOVERNMENT GENERAL ORDERS, COURTS-MARTIAL, &c.  
APPOINTMENTS, FURLOUGHs, &c.

#### *Arrival and Departures of Ships and Passengers in India.*

##### **REPORTS OF TRADE AND MONEY MARKETS.**

The intelligence under these heads is so arranged as to be readily referred to, the same being alphabetically dispersed.

#### **THE HOME INTELLIGENCE RELATING TO INDIA,**

besides original leading articles, Correspondence, and Reviews of Books, comprehends Proceedings in Parliament, Appointments, Casualties, Arrivals, Departures, Extension of Furloughs, and all Affairs connected with India and the Services.

Each year's Papers form a moderate-sized volume, which, with its Analytical Index, forms a complete ASIATIC ANNUAL REGISTER and LIBRARY OF REFERENCE.

The contemporary Press has pronounced the INDIAN MAIL to be INDISPENSABLE to all those who have friends or relatives in the East, as affording the only correct information regarding the Services, Movements of Troops, Shipping, and all events of Domestic and Individual interest.
